Release of Universal Flight Planning Program SCN 25.9

The information contained herein is subject to the Export Administration Regulation (“EAR”),
15 C.F.R. Parts 730-774. Diversion contrary to U.S. law is prohibited. Export Control
Classification Number (ECCN): 7E994.

NOTE: Revision A to this Service Bulletin adds instructions regarding the default
database storage location.

A. Effectivity

This Service Bulletin applies to Universal Flight Planning program (UFP) 25.9. UFP SCN 25.9 supports Flight Management System (FMS) software SCNs 601.X/701.X and later, 801.X/901.X and later, and 100X.X/110X.X. UFP 25.9 supports Universal Avionics GPS-1000 SCN 10.X, GPS-1000A SCN 20.X, GNSS-2400 SCN 10.X, GNNS-2400 SCN 11.X, GNSS-2400 SCN 30.X, and PAS SCN 10.0 – 10.2.

B. Compliance

UFP SCN 25.9 is optional but recommended.

NOTE: A Microsoft Windows® operating system is required for UFP SCN 25.9 which has been tested successfully on Windows 10 and Windows 11 to ensure compatibility.

C. Description

The following improvements have been implemented in UFP SCN 25.9 as it evolved from SCN 25.8:

- Fixed load failure on SBAS database with LP approaches under specific conditions
- Fixed load failure on databases with certain combinations of revision/special text and disk version numbers
- Updated default database storage location to allow UFP to run with a standard Windows user account
- Updated to support only Windows 10 and 11
- Fixed crash when listing airways under certain circumstances.

Follow these steps when installing UFP 25.9:

- (1) Save any existing company and pilot databases stored under C:\Program Files\UFP25 to another location.

SERVICE BULLETIN

- (2) Uninstall the existing UFP software using the UFP Uninstaller.
- (3) Install UFP 25.9.
- (4) Retrieve the company and pilot databases saved in step (1) and move them to the preferred storage location.

NOTE: Due to user account control settings, do not store databases in the “Program Files” location. The new default database storage folder location is Documents\UFP\.

D. Approval

Conforms to:

- RTCA/DO-178B Level D
- AC 20-138D (Airworthiness Approval of Positioning and Navigation Systems).

G. Cost and Availability

The UFP program SCN 25.9 is available for free download at
